## Press Release

### Hatteland Display appoints agent in Indonesia, Malaysia and Thailand

Hatteland Display (HD), the leading technology provider of specialized display and computer products to the international maritime and industrial market, has appointed Jason Electronics Pte. Ltd. (Jason) as its sole agent in Indonesia, Malaysia and Thailand.

The expansion of the existing Agreement was signed during Asia Pacific Maritime (APM) 2012 in Singapore. It reflects the great success after establishing the agent agreement for Singapore in 2011.

The entire team at JASON has shown outstanding dedication and paired with their profound expertise in the maritime market this has led to a great success and future business in the appointed territory of Singapore.

It is Hatteland Displays wish to be represented in Indonesia, Malaysia and Thailand by a unique partner to make it most transparent, convenient and reliable for the customers to consider the products of Hatteland Display in their projects.

*"With their proven strength, we are convinced, JASON Electronics will carry on with the great success and will transfer it to the new territories. Therefore we appoint JASON Electronics to represent Hatteland Display in four countries", says Goetz Vogelmann, Sales Director CEE & ASIA of Hatteland Display AS.*

*"We are very privileged to be the exclusive distributor of Hatteland Display, the world's number one leading technology of maritime display and computer products. We are confident that with the expansion to the new territories, we will be able to tackle new challenges and strengthen our*

*partnership with Hatteland Display AS.", says Ronald Tan, CEO.*

**--- About Jason Electronics ---**

Established in 1976, Jason Electronics is a leading marine and offshore oil & gas electronics systems integrator based in Singapore. An expert in maritime communication, navigation and automation systems, the company offers a one-stop solution that span design, supply, integration, installation, testing and commission of the equipment supplied.

Jason Electronics' network of offices and partners in the major ports of Asia provide customers with unparalleled maintenance support services. The company also provides customers with satellite airtime service.

**--- About Hatteland Display ---**

Hatteland Display is the leading technology provider of specialized display and computer products, delivering high quality, unique and customized solutions to the international maritime and industrial markets.

The company represents innovation and quality to the system integrators world wide. Effective quality assurance and investment in sophisticated in-house manufacturing methods and facilities enable us to deliver Type Approved and Mil tested products.

Our customer oriented approach, technical knowledge and dedication to R&D, make us a trusted and preferred supplier of approved solutions, which are backed up by a strong service network.
